HEALTHCARE STATION
O N E

Access control kiosk for **COVID-19** early detection

Healthcare Station

- Five health parameters measurement
  - Temperature
  - Height
  - Weight
  - Heart rate
  - Blood Oxygen Saturation
- Non-contact hydroalcoholic gel dispensing
- Artificial Intelligence Software
- Cloud platform for registration and monitoring

SPECIFICATIONS

Temperature measurement	Instantaneous temperature measurement at the wrist
Height measurement	Precise laser measurement
Weight measurement	Precise measurement
Pulse/saturation measurement	Pulse oximeter integrated in panel (for use with gloves)
Gel dispenser	Contactless gel dispenser with 1l capacity
AI Software	AI software for biometric data analysis with cloud registration / On-Premise for tracking
Size (without a high pole)	2200 x 670 x 900 mm
