

## A full featured digital media production solution.

TriCaster® solutions are known for being complete, capable, and cost-effective for producing and delivering media content. No other integrated system provides a more complete, professional workflow for mobile and studio productions at the price than TriCaster® TC410 Plus.

TriCaster TC410 Plus is a feature rich, entry level production system for digital media producers, publishers, and content creators. Equipped with the industry's leading software-driven production technology modern networking, IP integration, and hundreds of future-ready capabilities TriCaster TC410 Plus permits professionals to take advantage of established and emerging workflows to produce more content their viewers crave and deliver it whenever and wherever they watch.

- **Format Flexibility**  
 Deliver an immersive viewing experience for programs, performances, events, and sports intermixing formats up to 3G 1080p resolution at 60 frames per second.
- **Native IP Processing**  
 Perform NDI® video, audio and data transmission over IP with near-zero latency and instant access to and seamless interchange with IP sources from anywhere across the network in real time.
- **Multi-Source Video Mixing**  
 Create content using any combination of 8 external compatible SDI and IP video sources.
- **Multi-Destination Delivery**  
 Produce digital media content in various aspect ratios, resolutions, and frame rates for any screen with 2 pairs of SDI and IP live outputs, multi-platform live streaming, and social media publishing.
- **Recording and Replay**  
 Record 8 channels of full-resolution video to NDI®, QuickTime® or H.264 files. Archive the master cut, ingest raw camera footage for post-production, cache production materials, and capture real-time highlights for instant replay.
- **Control and Automation**  
 Configure custom user interfaces accessible with LivePanel™. A comprehensive macro automation system automates settings and supports custom command sequences. Integrate production automation with Live Story Creator to run shows from formatted Microsoft Word scripts.
